

THE **REDTOP** FLYCATCHER

took the South African market by storm.
After 18 years it is still the Brand leader.
IT CAN BE THE BRAND LEADER FOR YOU.

Proven & Tested Fly Control in operation for over 18 years.

This trap, with its thin-walled, downwardly tapering, transparent plastic container, has multiplied (by test) fly catching rates from 14 flies per minute to up to 155 per minute for traps of this general size. This capability brings control by trapping firmly into the lead as the fly-control measure of the future.

ADVANTAGES OF TRAPPING

No insecticides - a non - poisonous lure only, giving complete ecological safety.

No training of operators - just follow the simple instructions.

Re-usable traps are serviceable for up to five years. (Spares available)

Running cost is a fraction of that of insecticides

Non Toxic

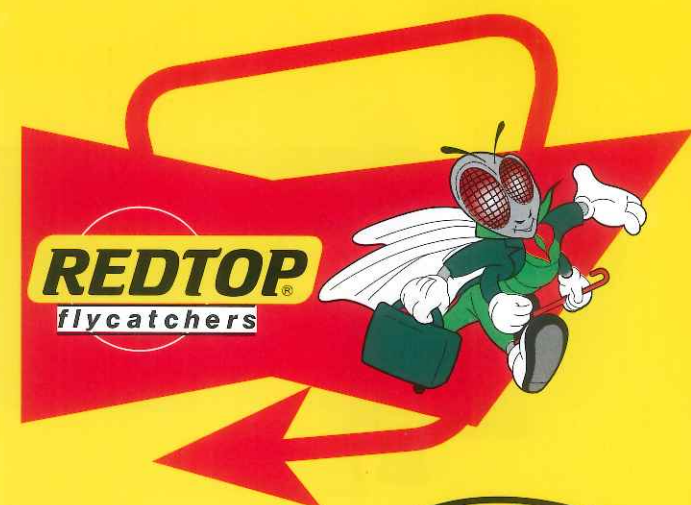

Environmentally friendly

FLYCATCHER BRINGS

Freedom
From

FLIES

HOW IT WORKS

Flies breed and hatch outdoors and NOT in the home - thus the **REDTOP** is designed to catch them outdoors at the bottom of the garden. It draws flies away from - rather than into - the home.

The **REDTOP** Fly lure is hugely attractive to female flies. 85% of flies caught in the **REDTOP** are egg-laying females. By controlling the female, the entire fly population in the area is brought under control.

The **REDTOP** Flycatcher exploits the survival instincts of the fly in order to trap it. Therefore the fly never becomes immune to the lure as is the case with insecticides.

PRODUCT RANGE

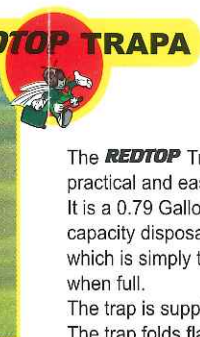

REDTOP STANDARD

The **REDTOP** standard is a 2 Gallons (8 litres) re-usable fly-trap, the trap is supplied with bait. When full, the trap is either emptied and rebaited or the bag and its contents are discarded and both the bait and bag replaced. The trap folds flat, so is very efficient on shelf space.

Box of 25 • Weight 15.6 lbs (7.1 kg)
310mm x 265mm x 700mm

REDTOP TRAPA

The **REDTOP** Trapa is practical and easy to use. It is a 0.79 Gallons (3 litres) capacity disposable fly-trap which is simply thrown away when full.

The trap is supplied with bait. The trap folds flat, so is very efficient on shelf space.

Box of 50 • Weight 22 lbs (10 kg)
500mm x 460mm x 280mm

REDTOP STANDARD SERVICE PACK

Spare bags are easy to install. Full instructions are supplied with each trap as well as with each Bait and Bag Service Pack. Each pack contains 1 spare bag and 1 x sachet of **REDTOP** Fly-lure.
